Logistic Services

6th MONTH LOGISTIC COURSE FOR NEW TRAINEES

Get trained staff to work in logistic management, transport inventory and warehouse management

Gain knowledge and skills in the organisation, production and delivery of products and services in a competitive business environment.

Supply chain management international payments and practical exercises

Course to be delivered in Arabic with English support or English with Arabic support

WORK SHOP OVERVIEW

- The importance of logistics to the future of the Sultanate of Oman cannot be overstated. The 10.7 billion Sino-Oman industrial city in Duqm is the latest venture to rely on a host of logistic and transportation skills.
- This 6 month, 720 hour course will train new employees in all aspects of logistics, supply chain management and transportation to enable companies to take full advantage of the coming logistics boom.

WHY YOUR STAFF SHOULD ATTEND

- They will gain excellent theoretical and practical skills in logistics.
- They will be trained to have a positive attitude and excellent timekeeping and work standards.
- They will receive 120hrs of practical English for logistics at either beginner or intermediate level.

WHO SHOULD ATTEND

Anyone who wishes to be highly trained to work in logistics, supply chain management, transportation international payments, import/export or allied fields.

720 Hrs

Logistic Services
